Hello,

For those who participate in the Classic Exchange, a couple of questions:=

I have only used 80 and 40m CW due to antenna limitations. I am interest=

ed
to know how much activity is on the other bands, so I can choose what
antennas to put up. If anyone wants to swap complete logs, that would be=

great, otherwise how many contacts did you make on 20, 15, 10?

Is there activity on the novice CW frequencies and/or AM? I would like t=
o
invite some slow code/no code folks from my club to participate.

Thanks, Rob K2WI

To all,

Rig Builders GE Ham News (1-48) is now on K4XL's
-=Boat Anchor Manual Archive=- (BAMA).

<http://bama.sbc.edu/>

This 1948 issue of GE Ham News has great charts for comparing various tubes
and circuits for Drivers, RF Amps and Modulators. This is needed if you
are considering building a new-old rig, or working on an old homebrew. I
found it in an old estate and thought the information was needed. I
scanned it at 300 dpi for good resolution in printing. It's 565kb, for all
8 pages. It prints and looks good at 8-1/2 x 11".

(Note the directory at BAMA might change. ???? Right now it's on:

<ftp://bama.sbc.edu/downloads/ge/hamnews/> Click on 1-48.pdf

exact link is <ftp://bama.sbc.edu/downloads/ge/hamnews/1-48.pdf>

Subject: Johnson TVI Kit For Viking I ?
Date: Tue, 31 Jul 2001 13:44:18 -0400
MIME-Version: 1.0
Content-Type: text/plain

Did Johnson put out a TVI-proofing kit for the Viking I? If so, did it come with an instruction manual? The Viking I that I have seems to have been de-TVI'ed using some sort of professionally-made screening and materials. I wanted to see if there was some way I could ID the work that has been done.

Any help appreciated.
Thanks.
73, Don Merz, N3RHT

Hi, Yes, Johnson did put out a kit and my manual has the directions in it. The June 1952 QST also has an article by W1DBM which gives a much more detailed account of TVI proofing the Viking I. I have done mine and can operate on the lower bands right next to my TV without any TVI.

Rich, WB1ASL

Gentlemen:

I'm looking for two knobs for a homebrew project. In order to match my cabinet styling, I'd like to use knobs like the Tune and Load knobs from a National NCL-2000 amplifier. If anybody has a junker, or any knobs of the same style, I'd love to buy them. In case you need to refresh your memory, I've posted a photo of the knob at: <http://www.muohio.edu/~4cx250b/knob.jpg>

Tnx and 73,

Jim Garland W8ZR

Hello, Does anyone have or know where I can buy the nomenclature tag for the top front of an R-388 receiver? Just picked one up and the tag is missing. I believe someone makes repro tags but I do not have any info.

Thanks,

Rich, WB1ASL

Really, give me a f----- break! I happen to own a excellent AT-1.
Whats the thing worth on Ebay? Do I hear \$2000? Russ

The tag will be missing on many receivers.
Some were delivered without tags, others had tags removed in
service.

Here are three known sources of tags:

Tom Marcotte N5OFF
242 Chestnut Oak Drive
Mandeville, LA 70448

courir26@yahoo.com

\$12.00 ea, w/screws

R-388 plates:

Mike Chanter
6432 Arcola Ave.
Garden City,
Michigan 48135.

mchanter@jaguar.com

"3 types are avail. by contract no. 1950, 1954-55 & 1957.
They are acid-etched & paint filled as orig. w/ blank space
\$ 13.50

Mike also has top and bottom covers "avail. too, match Collins 100 %.
\$ 120. set US + ship. Will making the tools to include with the covers soon
too !" and is looking into getting correct cabinets made up too.

Also, Dan "Hank" Arney, occasionally has them made up, and may have
some available.
hankarn@pacbell.net

These are the only three sources I know. I have ordered from all of them.,

If you have any problems getting tags, let me know. I have one or two
spares.

Hope this helps,

Ed VA3ES
